DETAILED ACTION

1. This Office Action is in response to the amendment filed on 5/17/2010. Claims 71, 73, 75-77 are pending.

Duplicate of claim

2. Claim 73 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 75. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP 706.03(k).-
3. Claims 73 and 75 are objected to because of the following informalities: The claims are essentially duplicate of one another. The only notable difference is that one says "each of which has a different compression rate", which mean the N steams (in claims 73 and 75) have different compression rate.

Applicants are requested to cancel/amend at least one of the claims. Appropriate correction is required.

Allowable Subject Matter

4. Claims 71, 76-77 are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
